ABOUT ME

Highly skilled Computer Science professional specializing in Large Language Models (LLMs), Retrieval-Augmented Generation (RAG) systems, and full-stack development. Claude Certified Architect currently serving as a Programmer Analyst Trainee at Cognizant. Proven ability to engineer autonomous AI agentic frameworks and build scalable web applications.

SKILLS

- **Programming Languages:** Java, C, JavaScript, Perl
- **AI & LLM Technologies:** RAG Systems, Agentic Testing, Large Language Models (LLMs)
- **Web & Frameworks:** React, Spring Boot, Node.js, Microservices, REST API, HTML/CSS
- **Databases & Tools:** MySQL, SQLite, Git, Docker, AWS, Oracle BRM

EXPERIENCE

Organization: Cognizant Technology Solutions

Position: Programmer Analyst Trainee

July 2025 – Present

Description:

- Undergoing intensive Oracle Billing & Revenue Management (OBRM) training focused on Perl, C, and C++, gaining experience in customization and integration of telecom billing modules.
- Implementing OBRM use cases and practice tasks to validate billing flows, data mapping, and reconciliation logic.
- Building debugging and test scripts in Perl and C to validate module behavior and accelerate issue resolution.

INTERNSHIP

Organization: Cognizant Technology Solutions

Position: Intern

February 2025 – June 2025

Description:

- Architected and delivered RESTful microservices using Java and Spring Boot for core backend modules.
- Containerized applications with Docker and deployed to AWS EC2, improving deployment consistency and repeatability.
- Engineered a concurrent credit-card processing module in C using POSIX threads and shared memory to simulate transaction workflows.

PROJECTS

NeXTRAG - Retrieval-Augmented Generation (RAG) Application

February 2026

Domain: AI/Large Language Models

- Developed a Retrieval-Augmented Generation (RAG) application to enhance Large Language Model (LLM) outputs by efficiently retrieving and grounding responses with real-time, external data, significantly reducing response hallucinations.
- Engineered a scalable data pipeline for ingesting and indexing unstructured documents for contextual retrieval.
- **Github:** [abhidigiworld/NeXTRAG](https://github.com/abhidigiworld/NeXTRAG)

AutomationAgent - AI Agentic Testing Framework

April 2026

Domain: AI/Software Testing

- Engineered an AI agentic testing framework to automate complex, multi-step validation processes, improving test coverage and accelerating the deployment lifecycle.
- Designed autonomous agents capable of dynamic decision-making and self-correction within a testing environment for robust quality assurance.
- **Github:** [abhidigiworld/AutomationAgent](https://github.com/abhidigiworld/AutomationAgent)

Sakshi Enterprise Billing System

May 2024

Domain: Web Application

- Developed a billing system for Sakshi Enterprise using React, Node.js, and MongoDB, reducing manual entry time by 60% and enhancing operational efficiency.
- Implemented robust features for invoice management and customer relationship management.
- Utilized modern web technologies to ensure scalability, security, and a user-friendly interface.
- **Github:** [abhidigiworld/bills](https://github.com/abhidigiworld/bills) (github.com)

Docket

April 2023

Domain: Java Application

- Built a Java-based application for optimizing study schedule management and productivity enhancement.
- Developed a personalized study planner application to improve study efficiency and boost exam performance.
- Created personalized study plans based on syllabus, exam schedules, and individual learning objectives.
- **Github:** [abhidigiworld/Docket](https://github.com/abhidigiworld/Docket) (github.com)

CERTIFICATIONS

- Completed Claude Certified Architect Exam (Verification: verify.skilljar.com/c/mycd9cr3i73k)
May 2026
- Earned Node.js framework certification from Board Infinity
May 2024
- Received React frontend certification from IBM
March 2024
- Obtained JavaScript certification from Board Infinity
July 2023

EDUCATION

Lovely Professional University Bachelor of Technology - Computer Science and Engineering, CGPA 7.68	Punjab, India August 21- July 2025
USPC Jain Public School Intermediate	Ludhiana, Punjab March 2020
Darshan Academy Matriculation	Ludhiana, Punjab March 2016
